

MUSHROOMS at the East Row Garden Club January meeting. Emalee and Pete Richman from Rich Life Farm and Fungi in New Richmond, Ohio, presented interesting information on growing mushrooms. The presentation included the science of fungi growth and the couple's personal journey in building their farm. For more information see their website www.richlifefarm.com.

Neighbors showed up in large numbers to hear about MUSHROOMS despite a freezing winter night.

Pete explained the process they use for growing mushrooms in their lab

Emalee and Pete answered many questions.

Pete and Emalee answered further questions after the session ended. Note the mushrooms they brought as examples.
